

ART

Summer Work 2018

1. Using the title 'Places I have been', take and print at least 20 photographs. It is up to you how you interpret this title. It may be that you are going on holiday and use this as your inspiration or it could simply be taking photographs around your home. Think carefully about your subject matter, colour and composition.
2. From your photographs create a series of A5 drawings.
3. Go to two Art exhibitions over the summer. Take photographs (if you can), collect leaflets and create drawings. These can go in your sketchbook in September.

Here is a useful website you can use to find out what exhibitions are on over the summer:
