

PHOTOGRAPHY

Summer Work 2018

1. Using the title '**The City**', take 100+ images of aspects of the city. Make sure you are following a plan or strategy that further explores your ideas.
2. Go to two Art exhibitions over the summer. Take photographs (if you can), collect leaflets and create drawings. These can go in your sketchbook in September.
3. Join Pinterest, follow Beaumont and begin to create an album of Photography you like. This will be really helpful when we begin your coursework in September.
4. Look on the Beaumont Art Blog for exhibitions. Also a useful website you can use to find out what exhibitions are on over the summer:
