

## Geography Summer Work

### **Background reading and effective note-making**

To start becoming familiar with some of the topics you will be studying during Year 12, we would like you to read and make notes on the following **6** articles.

They are available on line by clicking on the link below and scrolling down to 'online journals' and to 'Phillip Allen Reviews Online' then selecting '**Click here for direct access to dynamic learning**'. The scroll down to geography, from here you will be able to search the journals by volume and issue number (the details of which can be seen in the list of readings below)

<https://sites.google.com/a/beaumont.school/library/>

This web site will be one that you should use on a regular basis throughout the next two years. All of the articles are from Geography Review Magazine which is written for A Level students like you.

So please go online, read and make notes on each of the articles listed below. You can print off the article if you wish and keep it in your file. When you come back to school in September your Geography teachers will want to see the notes that you have made. Hopefully you will find the articles interesting.

#### **Physical:**

##### **Soufriere Hills, Monserrat: part 1 Recent Volcanic Activity**
