# A New Era

BEAUMONT SCHOOL September 2021

In Autumn 2016, we completed the second phase of our new and enhanced facilities. Phase 1 was the addition of the all-weather pitch, multi-use games area and three, full sized grass sports pitches. In Phase 2, we opened a four court sports hall complex, incorporating conference facilities and a 30 station fitness suite, alongside our existing gym facilities. Within this new build programme, we created new reception and admin areas, improved parking as well as eleven additional, IT enhanced classrooms. Alongside major refurbishment of some of our older buildings, Phase 3 has included the building of a new Science Block, comprising 12 new laboratories and six additional teaching rooms. This exciting new development has been accompanied by a new pavilion dining area for students, which opened in Autumn Term, 2021.
